Day 1 - 4: Old Drift Lodge, Victoria Falls, Zimbabwe

On arrival at Victoria Falls Airport you will be met by a Wild Horizons representative who will assist with your road transfer to Old Drift Lodge. Here, you spend two nights on a fully inclusive basis.

At Victoria Falls, the earth splits open and swallows one of Africa's greatest rivers, the mighty Zambezi, creating the largest sheet of falling water on earth. As the water hits the narrow depths of the Batoka Gorge beneath, it blasts a cloud of mist skywards, lending the falls their local name 'mosi-oo-tunya' (the smoke that thunders). When the Zambezi is its fullest, the mist hangs a permanent raincloud above the falls, showering visitors on even the sunniest of days and visible for miles around.

Above the falls on the upper Zambezi, boats cruise the tranquil water at sunset while the distant spray catches the fading light downstream. Below the falls, the Batoka Gorge's rocky walls funnel the lower Zambezi into a chain of world-class rapids, prime for white water rafting.

Aside from being a UNESCO world heritage site and a natural world wonder, Victoria Falls also forms a natural border between Zimbabwe and Zambia. The falls can be seen from both countries, and for the most part the same activities are offered on both sides, from helicopter scenic flights to village visits and souvenir shopping.

Whether your idea of getting away from it all is a relaxed high tea in colonial grandeur or a heart-stopping bungee jump off a bridge, Victoria Falls keeps both the faint of heart and the most insatiable of adrenalin junkies busy for days.

From Zambia, a side on view of the falls is on offer with views into the Batoka Gorge, as well as the possibility of perching yourself at the edge of the falls on the vertigo-inducing Livingstone Island.

From Zimbabwe, you'll get a full-frontal view of three quarters of the falls' 1.7km wide curtain of water from viewpoints and footpaths meandering through a rainforest kept hot and humid by the spray of the falls.

Overnight: Old Drift Lodge [View iBrochure](#)

Includes: meals, selected activities, local drinks, return Victoria Falls/Livingstone airport transfers, conservation levy park fees, town shuttle & laundry

Excludes: premium drinks, additional activities, rain forest entry fee

Included Activities: morning and afternoon game drives and river safaris, bush walks, guided Tour of the Falls (excluding Entry Fee)

Old Drift Lodge nestles in the untouched, beautiful surrounds of the Zambezi National Park, only 4.5km upstream from Victoria Falls. An abundance of wildlife inhabits the park which can be explored by road, river or on foot. The region's rich natural heritage is reflected in the lodge's fourteen graceful tented rooms. All carefully styled rooms feature spacious, ensuite bedrooms with indoor/ outdoor showers, outdoor "bath with a view", complimentary mini bar drinks in rooms, deck and private plunge pool. Four are ensuite family rooms.

With sweeping 360° views from the splendour of the Zambezi River through to a waterhole (and back to the river), the main lodge area boasts a breath-taking dining and bar setting. Game drives follow the river course whilst pontoon boat safaris offer unique views of wildlife along the banks as well as in the water. Large mammals including giraffe, eland, zebra, elephants and buffaloes roam the park, as do secretive predators. Guided bush walks afford fascinating ways to discover the smaller creatures, plants and numerous birds of the park. A guided Tour of the Falls bring guests incredibly close to the awe-inspiring Falls.

Airport Transfer Time: 40 minutes from Victoria Falls Airport

Day 4 - 7: Kwando Kwara Camp, Okavango Delta

Following breakfast and a morning activity (transfer time permitting), you will be transferred into Botswana and on to Kasane Airport. On arrival at Kasane Airport you will be met by a representative from Mack Air to assist with check in for your light aircraft transfer flight to Kwara Airstrip. Your guide will meet you on arrival at the airstrip to assist with your transfer to Kwara Camp. Here, you stay for three nights on a fully inclusive basis.

Please note that the flight is booked on a 'seat rate' basis and therefore flight times are not scheduled until the day prior to flying, lodge managers will arrange your activities and transfers accordingly. Please note that there is a strict luggage restriction on all light aircraft flights of 15kg per person in soft bags, plus 5kg hand luggage and there may be up to 3 stops en-route.

The Okavango Delta is where the wild things are: an immense, waterlogged oasis alive with elephants and birdlife, adrift in the middle of Kalahari sands. The real magic of the Delta lies in its water, trickling through from far away highlands, and spreading across the channels and floodplains.

During winter in the Kalahari, when the sun has baked the earth bare and turned the desert its driest, water fills the Okavango; transforming the floodplains into a Noah's Ark of African wildlife.

As the water brings life to the delta, its local residents shape and recreate it. Termites slowly build mounds into islands, germinated with palm trees by passing elephants. Waterways open and close on the whim of wide-bottomed hippos, carving out channels where they crash through reeds, and leaving room behind them for exploration by mokoro.

The Okavango has many faces, which change throughout the year, prompted by that most unpredictable diva of all: the weather. Water levels rise and drop, expanding and shrinking islands, while animals move where the life is easiest and the grass greenest. In a few days, a sandy road driven by vehicle can become a waterway of unknowable depth, prompting a safari by boat instead.

Where and when you stay in the Okavango Delta will hugely influence what you do in the bush each day, the animals you're most likely to see and finally, the safari experience you'll have.

The delta's watery heart is best discovered by mokoro through shallow channels and floodplains, as well as crossing the islands on foot. For less water and more of the big game, visit a camp on its drier edges (including Moremi Game Reserve and the Khwai Community Area), jump on a vehicle and seek out the animals hiding in the woodlands.

Overnight: Kwando Kwara Camp [View iBrochure](#)

Includes: meals, local drinks, activities, laundry & return airstrip transfers

Excludes: premium drinks

Activities: day & night game drives, boat cruises and mokoro (seasonal and water level dependent) and walking

**** PLEASE NOTE **** Kwara is a new camp, opening September 2019 and images are not available at the time of itinerary issue – will be replaced when available and the digital version will update automatically **

Kwara Camp is situated on a private concession on the edge of the permanent waters of the world renowned Okavango Delta in Botswana, which shares a common boundary with Moremi Game Reserve. The area offers a combination of permanent water, seasonal floodplains and pans, open grasslands as well as extensive dry bush and scrub which creates a great game viewing destination throughout the year.

The eight safari-style tents are built on raised decks within a grove of huge and ancient African Ebony trees. Each tent has an en-suite bathroom with a semi open shower and a private deck with views across the floodplain. There is a lounge, bar and dining area in the central lodge as well as a plunge pool and gift shop. Evenings can be enjoyed around the outside fire area.

Kwara is renowned for being a camp that offers a year-round delta experience and a diverse range of activities including mokoro trips, guided walks with armed guides and motor boating trips through the waterways. In addition, day and night game drives are taken to explore the area which offers spectacular scenery with scattered herds of plains game and ever-attendant predators.

Airstrip Transfer Time: 15 minutes

Day 7 - 10: San Camp, Makgadikgadi Salt Pans

(replaced by Camp Kalahari /seasonal outside of 15 April – 15 October)

After breakfast and morning activity (flight time permitting) you transfer back to the airstrip for your light aircraft transfer flight to San Camp, where you enjoy your last 3 nights on a fully inclusive basis.

Please note that this itinerary is featuring San Camp in the dry season, however in the green season months we use Camp Kalahari. San Camp is a seasonal camp open only from 15 April to 15 October. Should you wish to stay at Camp Kalahari in the dry season the price will be lower than the listed pricing on the summary table.

MAKGADIKGADI SALT PANS

The Makgadikgadi Salt Pans are all that remains of a great lake which once covered most of northern Botswana, fed by rivers carrying salts. The most iconic pans, Ntwetwe and Sua Pan provide vistas of blinding white salt flats reaching far into the horizon where pans sleep-outs are experienced. No vegetation grows on the salty surface of the pans, but the fringes are covered with grasslands. No animals live on the pans, save a few populations of desert species and the elusive brown hyena living near the fringes. The result is that the salt pans provide an unforgettable landscape experience of incredible sunsets and sunrises and a bewildering lack of perspective rather than a game experience. Africa's famous explorer Dr. David Livingstone crossed these pans in the 19th century, using two massive baobabs, believed to be 3,000 to 4,000 years old as a navigation tool.

All camps on the salt pans are situated on or next to Ntwetwe Pan in the west of the pans complex and offer quad biking on the pans, visits to habituated meerkats, archaeological walks as well as cultural insight into the lives of the San people. More recently horse-riding expeditions have been made possible, providing a unique way to explore the landscape. All activities in this area are subject to favourable conditions as the slightest rainfall can make the pans completely inaccessible. During the rainy season, the main attraction of

these camps is the zebra and wildebeest migration passing through during the early months of the year with other activities during this season being very limited. During years of good rains, the pans can be transformed into a powder blue lake with waters gently lapping the shorelines – a clear indication of the gigantic lake the Makgadikgadi once was. The floods attract flamingos with numbers running into the tens or even hundreds of thousands but the spectacle is fleeting and difficult to catch. Camps located on and next to the pans are Camp Kalahari, Jacks Camp and the seasonal San Camp, operating only during dry season. Accommodations in Gweta also access this part of the pans, running overnight trips to the area.

Sua Pan is the eastern-most of the large pans and is separated from Ntwetwe Pan by a thin strip of grass. One of the most striking destinations in this area is Kubu Island, a rocky outcrop near the south-western edge of Sua Pan accessible only by quad bike expeditions of several days from Camp Kalahari, Jack's Camp and San Camp or by self-drivers. This crescent-shaped island is about one kilometre long and apart from its eerie isolation and breath-taking beauty, Kubu is rich in archaeological and historical remains. Stone Age tools and arrowheads can still be found today along the shorelines of this tiny island and a circular stone wall and stone cairns suggest that Kubu may have been part of the outer-reaches of the Great Zimbabwe Empire that was based at Masvingo, in modern-day Zimbabwe.

Overnight: San Camp (or Camp Kalahari) [View iBrochure](#)

Includes: meals, local drinks, activities, park fees and laundry

Excludes: premium drinks

Activities: day & night game drives, Bushmen Walks, Chapman's Baobabs & Meerkat Visit, and Quad Biking

** Please note that outside of 15 April – 15 October San Camp is replaced by Camp Kalahari in the Makgadikgadi. Camp Kalahari is a more affordable option and can be replaced by Jack's Migration Camp or Jack's Camp for additional payment – please discuss with your consultant) **

San Camp is situated on the edge of the vast Makgadikgadi Salt Pans. These spectacular pans are one of the most important wetland sites remaining in Africa. This traditional camp has a romantic essence complemented by the desolate beauty of the pans.

San has six Meru-style tents, well-spaced ensuring privacy and facing the pan. The cream-coloured tents blend in harmoniously with the environment and each tent has an en-suite bathroom with an extensive range of toiletries, a vintage style bucket shower and a flush toilet. The rooms are comfortable with simple furnishings: the high beds that give a great view of the pans, a canvas set of shelves and two trunks at the end of each bed. Lighting is using traditional old spirit lamps which give a gentle glow. The main area of San is a simple white canvas tent, and inside you'll find a long table with chairs surrounded by bookcases. There's an interesting collection of tortoise shells, arrowheads and other artefacts on display.

During the dry months (April to October) four wheeled quad motorbikes are used to explore the vastness of the land. Guided walks are taken into the middle of the Pans to explore remote archaeological sites and discovering sites never before documented such as fossil beds containing the remains of extinct giant zebra and hippo. Many of the guides are fully qualified Zoologists/Geologists, often working on PhD research. As such, they are most able to convey all the nuances of the desert and the adaptations of its inhabitants which we consider to be one of the most interesting features of the environment.

San Camp is a complete desert experience focusing on species unique to the area such as gemsbok, brown hyena and springbok as well as the geology, archaeology and anthropology of the Kalahari and Makgadikgadi.

Please note: All activities are subject to seasonal availability and weather conditions during the month of travel. Walking and quad bike activities may be limited in the wet season due to dense vegetation and limited visibility or sticky, muddy trails. Some activities will need to be pre-booked before travel. Please note that quad bike activities are based on 2 people per quad bike. Children under 12 must be accompanied by an adult.

Day 10: End of Itinerary

Following breakfast and a morning activity (flight time permitting), you will be transferred to the airstrip in time for your light aircraft transfer to Maun Airport. A Safari Specialists representative will meet you on arrival at the airport to assist with your onward travel.

Passports, Visas and Travel Documentation

Your passport must have at least 6 months validity before the expiry date and 6 empty pages (not including the endorsement pages). The onus is upon guests to ensure that passports and visas are valid for the countries visited. Please note that certain visas can take up to 3 months to be processed so please consider this when booking.

If you are travelling with children through Southern Africa please be aware that you will be required to have certified copies of their unabridged birth certificates, and passports on hand. If you are not their legal parents,

or if only one of you is travelling – you will need to have consent in the form of an affidavit giving you permission to travel with the child.

Inter-camp transfers

Due to the vast distances involved in travelling in the remote areas of Southern Africa - your itinerary may include road, boat and air transfers in small aircraft.

On shared air transfers, all the flight times between lodges are arranged a few days before the flights take place to avoid endless schedule changes. The lodge or camp where you are staying will be advised of your departure time the day before travel and will ensure that you are at the airstrip on time. Although every effort will be made to ensure that guests are transferred together in one vehicle / aircraft, this cannot be guaranteed, especially with larger groups. The aircraft used for inter-camp transfers vary in size from 3, 5, 7 and 12 seater aircraft. We recommend that guests susceptible to motion sickness take appropriate precautions due to flying conditions.

Weight & Luggage Restrictions

There are strict luggage restrictions in place on any itinerary, which includes light aircraft transfers for safety reasons. Luggage, including camera equipment and hand luggage, is restricted to 20 kg per person travelling on seat rates. Only soft bags will be accepted - no hard suitcases or bags with wheels can be transported, as they physically cannot fit into the aircraft.

The maximum dimensions of the soft bags that can be accommodated are as follows: 25cm/10 inches wide x 30cm/11 inches high and 62cm/24 inches long. Please keep in mind that the baggage compartments on the light aircraft are only 25cm high, so the pilots must have the ability to manipulate the bag into the compartment. Note that laundry can be done on a daily basis at most camps and lodges.

Should you arrive with excess baggage without prior warning, your baggage could be delayed, as we may have to fly the baggage into camp at a later stage at considerable extra cost to you. However, should you notify us in advance that your baggage will exceed the limit; we may be able to assist you with alternative arrangements e.g. storage or purchase of additional luggage allowance.

For bookings including flights within Zambia & Mozambique, please note luggage weight exceptions under destination information.

Lost Luggage

Lost luggage on international flights is a common problem facing travellers today. We suggest that you pack a small bag with your essentials, including any life sustaining medication, which can be carried with you as hand luggage. If travelling as a couple or family we suggest that you split your clothing between bags so that if one bag gets lost, you will have basic items on hand to see you through the first couple of days while we try and recover your lost baggage.

Please note that whilst we try our utmost to locate and re-unite you with your bags, that there may be charges involved in getting your bags to remote areas, which would be for your cost. Please remember to report the lost luggage to the airline as soon as you make the discovery - the airline will issue you with a Baggage Claim Form, which you will need in order for us to trace the bag.

Health and Dietary

Please note that you are travelling to a Malaria-risk area. Please consult your doctor for medical advice prior to travel.

Although usually safe to drink, we do not recommend that you drink the tap water. Filtered water is available at the camps and lodges.

The camps are isolated and generally have limited power supply and access to supplies. Please notify us in advance of any special dietary requirements, medical conditions and medical equipment you may need with you. Please carry critical medication in your hand luggage.

Yellow Fever Certificates - are only required if you have travelled to a Yellow Fever area as designated by the World Health Organisation. Please check with your Travel Clinic or doctor well in advance of your departure date.

General Travel Information

- There is no or limited electricity and cell phone coverage in the camps and lodges excluding major towns and cities. All camps do make provision for charging cameras and electronic devices.
- Please ensure that you do not pack any valuables, cameras, cash, laptops in your checked in luggage – these should be kept on your person at all times.
- Please notify us immediately of any changes to flight arrival and departure details as this affects onward transfer arrangements.
- Please note that most camps & lodges in Botswana do not have double beds. Twin beds are pushed together to make up a double room.
- Although every effort is made to adhere to schedules the company reserves the right and in fact is obliged to occasionally change routes and camps on safaris as dictated by changing conditions or unforeseen circumstances.
- By confirmation of the booking, you acknowledge that you have been made aware and accept that the tour carries inherent risks, and that you voluntarily assume all risks which are associated with the tour. You will be required to sign indemnities at the various camps, lodges and service providers, and abide by their operators code of conduct in order to ensure your safety.
- If you have any cause for complaint while travelling, you should immediately bring it to the attention of the camp manager and / or our Maun office that will attempt to resolve the situation immediately.
- Do not remove any animal artefacts, flora or fauna from any of the areas you visit, as there are strict international regulations on the export of such items.

Please refer to the **Safari Information** for further details on preparing for your safari.
